

The 7.5 megawatt solar farm increases Burundi's generating capacity by 10%, representing the first substantial energy generation project in the country in more than 30 years. Financing for the project was provided by the UK's Renewable Energy Performance Platform, pan-African private equity investor Inspired Evolution, and Gigawatt Global.

Built through a multinational effort, the pioneering 7.5 MW solar PV plant near the village of Mubuga has been in operation since May 2021 and now provides over 10% of Burundi's electricity, supplying clean power to tens of thousands of homes and businesses.

CONCENTRATED SOLAR POWER STORAGE BURUNDI

Built through a multinational effort, the pioneering 7.5 MW solar PV plant near the village of Mubuga has been in operation since May 2021 and now provides over 10% of Burundi's electricity, supplying clean power to tens of thousands ???

Burundi has officially inaugurated the country's first utility-scale solar field, as part of push to leverage renewable energy for improved access to electricity for homes and businesses. The grid-connected 7.5MW solar power plant, ???

Burundi has officially inaugurated the country's first utility-scale solar field, as part of push to leverage renewable energy for improved access to electricity for homes and businesses. The grid-connected 7.5MW solar power plant, located in Mubuga, became operational in 2021.

CONCENTRATED SOLAR POWER STORAGE BURUNDI

The Mubuga Solar Power Station is a grid-connected 7.5 MW solar power plant in Burundi. The power station was constructed between January 2020 and October 2021, by Gigawatt Global Coöperatief, the Netherlands-based multinational independent power producer (IPP), through its local subsidiary Gigawatt Global Burundi SA.

The pioneering 7.5MW solar PV plant has increased Burundi's generation capacity by over 10% and is the country's first substantial energy generation project to go online in over three decades, supplying clean power to tens of thousands of homes and businesses ??? just before the start of COP26.
