

Are lithium-ion batteries linked to child labour in the DRC?

An Amnesty International investigation in 2016 revealed that lithium-ion batteries could be linked to child labor in the DRC. The country, which has a long history of foreign exploitation of its natural resources, is now a hot spot for foreign companies to extract high-value and abundant minerals.

What are Sion Power's Standard battery packs?

Sion Power is developing standard battery packs, using the Licerion-HE cell, to include: Sion Power has performed safety tests on cells and batteries which include nail penetration, external short circuit, overcharge, and heat application tests. Additional tests are performed based on customer requests.

What are licerion rechargeable batteries?

Batteries made using Licerion rechargeable technology offer applications key performance advantages over other technologies. Designed specifically for aerospace and other un-crewed applications, Licerion is lighter and smaller than a lithium-ion cell yet with increased energy storage.

How is Sion accelerating the performance of lithium metal battery technology?

Sion is accelerating the performance of lithium metal battery technology and forging a path to an anode free battery. Batteries made using Licerion rechargeable technology offer applications key performance advantages over other technologies.

Does Sion Power produce licerion™-EV cells?

PULSE DISCHARGE RATE? (60S) Sion Power is producing Licerion™-EV cells. The above specifications are referencing the Licerion™-EV cell and are subject to change without notice. Request a specification sheet using the contact form on page bottom.
