

Use the official Home Assistant apps, a convenient companion to quickly control your devices and be notified when things happen in your home, even on your wrist using the Apple Watch. The apps can also be used to send your location home to use presence detection as ???

The app is the same price essentially of the wifi dongle. The wifi dongle also allows remote upgrades direct from China, so I personally do not want to allow that, but that is just me. Did you know you can actually shut off ???

The app is the same price essentially of the wifi dongle. The wifi dongle also allows remote upgrades direct from China, so I personally do not want to allow that, but that is just me. Did you know you can actually shut off the inverter over that Smart ESS app, and even logging into the web browser? Bit odd functionality if you ask me.

CONGO REPUBLIC SMART ESS HOME ASSISTANT

Hi all, this is my first post and I just wanted to share a small project with you how I get data from my Solar Inverter from AlphaESS into Home Assistant via MQTT. It is a small Java-Application that polls the cloud service of Home Assistant, so not the best solution but quiet sufficient for my needs so far.

I would totally buy a smarthings hub if i could locally connect it to home assistant. The support for zwave/zigbee on smarthings is vastly superior than all of the options from home assistant. At least that was the case 3-4 years ago.

I started to build a custom integration for the LG ESS Inverter: <https://github.com/dkarv/hacs-lg-ess>. It allows watching your home energy consumption, solar and battery statistics. It is built with the python library pyess. I currently publish all data points I receive from the device and calculate two more for positive and negative grid and

CONGO REPUBLIC SMART ESS HOME ASSISTANT

This Addon is based on the reverse engineered API alphaess uses to show your current metrics on their web interface / mobile app. The obtained data that is sent via MQTT to the configured broker (or directly to the Home Assistant instance this addon is running on).
