

The Australian Government is proposing to expand the Heard and McDonald Island (HIMI) Marine Reserve by over 300,000 km² to around 379,000 km². The expanded reserve would cover nearly 90 per cent of the Exclusive Economic Zone around the islands and bring the proportion of Australian waters protected through marine reserves to 51 per cent.

Heard Island and McDonald Islands are located in the Southern Ocean, approximately 1,700 km from the Antarctic continent and 4,100 km south-west of Perth. As the only volcanically active subantarctic islands they "open a window into the earth", thus providing the opportunity to observe ongoing geomorphic

Heard and McDonald Islands This is one of the wildest and remotest places on earth. Heard Island is dominated by Big Ben, Australia's highest mountain and an active volcano, under a deep mantle of snow and glaciers. On the horizon, the volcanic McDonald Islands rise precipitously out of the world's stormiest waters.
