

Who is ContiTech power transmission?

The ContiTech Power Transmission Group is a developer, manufacturer and supplier of power transmission belts, components and complete belt drive systems for vehicles, plant and machinery. The company is in demand throughout the world as a development and service partner for original equipment and the aftermarket.

Does ContiTech offer dual power?

CONTI-V[®]; Dual Advance and CONTI-V[®]; Dual Power are available on request. The ContiTech Power Transmission Group is a developer, manufacturer and supplier of power transmission belts, components and complete belt drive systems for vehicles, plant and machinery.

What services does ContiTech offer?

Our branded power transmission products are available through qualified distributors that are carefully selected and trained to provide much more than quality ContiTech products. A complete selection of value-added services are available including cost reduction programs, sales and technical support and inventory control programs.

Who is ContiTech?

As a division of the Continental Group, ContiTech is a recognized innovation and technology leader in natural rubber and plastics. As an industry partner with a Zirm future ahead of us, we engineer solutions both with and for our customers around the world. Our solutions are specially tailored to meet the needs of the market.

How does ContiTech work?

ContiTech uses the synergies available worldwide within the corporation to produce power transmission solutions which feature highly advanced materials technology and design. This offers machinery and plant manufacturers almost unlimited scope for action.

What is a ContiTech flat cord transmission belt?

ContiTech Flat Cord transmission belts are made with a single-layer, reinforcing section for a cross section which is thinner by 25% or more compared to plied belts of equal horsepower capacity. The high-tensile

strength,multistrand synthetic cords used in Flat Cord belts provide maximum strength and minimum elongation.
