Get high quality control panels and switchgear for all your power generation applications, with expert support from Control and Power Systems. With a dedicated design and manufacturing facility in North Yorkshire, an experienced team of engineers and exacting quality standards, we are trusted by customers worldwide.

Bring your control systems up to date, with bespoke retrofit and upgrade support from Control and Power Systems Ltd. Over time, old controllers can become difficult to support and expensive to maintain ??? as manufacturers change and components become harder to source. 3E Burniston Industrial Estate, Scarborough, North Yorkshire YO13 0HG

The remit was to upgrade the three standby generator local control panels and the main control panel. The existing system was an old and obsolete Petbow system which controlled the three 11kv generators which provided emergency power to the HMRC site and also allowed for the generators to operate in parallel with the local grid supply.
