I got to the point in the ocean quest where I'm meant to activate 20 solar orbs. I already activated 9, but I can't find any more. I cleaned the whole available area a few times, I reset the anchor twice, and still nothing. I can see the inactive pillar, but the solar orb is missing. I really don't want to start my game again because I got quite far.

The island's tourism abides by several new initiatives which are so good to see. It is believed that the accommodation sector alone accounts for 21% of the total carbon emissions on the island so a range of measures has been introduced including: Using renewable energy sources like solar panels. Recycling includes composting waste materials.

I have went about 2 in game weeks and cleared everything in an area and nothing, I have also seen that moving the anchor will spawn it in the next day but I have tried that a few times and it doesn't seem to have helped either, any tips or tricks I can use to get it? I am still in the starting area underwater.
Thanks for the tips!

It appears that the solar orb will glitch out if you uncover it, but not activate it, then sleep in game (and possibly logging off too). The general consensus is to let the trash accumulate again, and then it might show up, but everyone I talked to said it didn't help.

The machines resume working when you reload the game, so the best workaround (until the devs fix it) is to go back to main screen first thing on every morning. Picking up the machine and putting it back works also, but is only practical for machines not ???

Hey all! I've been having great fun testing CI and submitting bug reports to help out the devs, but this one's been something I've seen other people aren't having and I want help figuring out the process I went through that triggered it. Long story short, I'm in late fall (grabbed cows late this time) and just handed over bronze milk to the last turtle to access solar orb ???

I have my farm underwater and having been accumulating solar fragments, but when I go to Ling's Lab there is no Solar Cores being sold. They were only sold there for one update, as a way to get them because the cores and fragments hadn't been added to the loot table yet. Now you can get fragments and cores from sandstone and clearing trash.

How to Use Solar Panels in Coral Island.
Fortunately, there aren't any tricks to operating solar panels in Coral Island. Once you've crafted any number of these items, you can simply place them on your farm, where they'll begin working to produce batteries. These materials are needed to craft a variety of automatic machines, from the auto feeder to the auto trash ???

Hi all.. So I'm still in my first year, Winter in fact .. I've wandered around the ocean floor and think i have hit a wall.. a big black oily wall in fact. giving something to the creature, i got past them .. and a solar orb got rid of the first Black roots at the top of stairs.. but not the bottom. I've re-walked everywhere i can think of and cant find another orb to get rid of ???
