A minimalist solid steel front panel offers superb durability and sharp looks, with dedicated ventilation channels for ample airflow. A motherboard tray with customizable fan mounts allows you to side-mount up to 3x 120mm fans or up to a 360mm radiator, enabling new flexible cooling options. The CORSAIR 5000D is a mid-tower ATX case

Reinstalling the glass panel. Align the right side of the glass panel with the frame of the case. Connect the panel tabs into the frame of the case. Gently close the left side of the panel into the case. Use your thumb to guide the top left corner of the panel and secure it by gently pressing it in until you hear a click.
