

Tayar Solar System Company in Jordan is one of the leading companies in installing solar energy systems and providing electricity. Our designs use the most cost effective and technically advanced solutions to maximize power generation and provide the optimal Return on investment. Be it concrete roofs, Industrial roofs with Thermal

Looking at national average pricing data, we found that the cost of owning a 5 kW solar system ranges from \$13,250 to \$21,000, or from \$2.65 to \$4.20 per watt, and that's before considering the benefits of any available tax credits or incentives.

As of January 2022, the average cost of solar in the U.S. is \$2.77 per watt (\$8,310 for a 3-kilowatt solar system). That means the total cost for a 3,000-watt (3kW) solar system would be \$6,149 after the federal solar tax credit discount (not factoring in any additional state rebates or incentives).
