

How much does solar cost at Costco?

First off, Costco offers customers who go solar with Sunrun a cash card worth 10% of the equipment cost. With equipment accounting for about 30% of the total install cost, and Sunrun's installation cost being around \$2.92 per watt (see NREL report above), that's about \$0.10 per watt you'll get back.

What Solar Options does Costco offer?

The second solar option for Costco customers is a complete residential solar system from one of the nation's largest solar providers, Sunrun. With this option, Sunrun provides customers with high-quality solar equipment, professional installation, warranties, and system monitoring; with the added perk of Costco shopping benefits.

Can you go solar through Costco?

There are two very different ways to go solar through Costco: portable solar generator kits and complete, professionally-installed rooftop solar systems via Sunrun. The first is to purchase portable solar equipment from Costco that can travel with you and/or serve as an emergency power source at home.

Does Costco offer a Solar Shop card?

Costco members who purchase a qualifying residential solar system from Sunrun, either with cash or with a loan (not through a lease or a power purchase agreement), will receive a Costco Shop Card for 10% of the pre-tax cost of the equipment, including solar panels, racking, inverters, and batteries.

Does Costco sell Sunrun solar?

Sunrun currently has more than 2,000 customer reviews on our solar reviews site and an average rating of 3.5/5 stars. Of those reviews, 80+ mention purchasing a Sunrun system through Costco. The review breakdown for Sunrun reviews mentioning Costco is as follows:

Does Costco sell solar panels?

Costco also sells the Lion Energy Safari ME MAX Energy Kit, which includes a solar generator, expansion pack, an inverter, and 6 100-watt 24-volt solar panels. These kits are intended for charging electronic devices, operating LED lights, and other small-scale home and RV or boat needs.

Getting a Sunrun solar system installed through Costco can be advantageous due to potential cost savings and the reliability of Costco's customer service. However, it's important to note the limited state availability ???

Discussion of solar photovoltaic systems, modules, the solar energy business, solar power production, utility-scale, commercial rooftop, residential, off-grid systems and more. Solar photovoltaic technology is one of the great developments of the modern age. Improvements to design and cost reductions continue to take place.

Remember Costco is just where Sunrun is advertising you have none of the protections afforded for services bought through Costco. Remember they are buying space in a costco to sell their product they are not a costco product. Note that there is no Costco branding on that flyer. If Costco won't put their name on it that should tell you A LOT.

The average solar energy system from Sunrun is expected to cost between \$27,000 and \$29,000 before any solar credits or solar rebates are considered. These estimates are based on cost data pulled from consumer reports and commercial sites. Costo and Sunrun have partnered to provide access to affordable solar solutions in Costco locations
