

Who is CWP Europe?

Since 2021, CWP Europe has operated as a joint venture between CWP Global, a leading global renewable energy company, and Mercuria Energy Trading, one of the largest independent energy traders with revenue of more than USD\$140 billion.

What is CWP global?

The CWP Global mission is to supercharge the necessary decarbonization of the global energy sector, supporting the energy transition with high impact projects, particularly in traditionally fossil-fuel-reliant countries and regions where renewables have the potential to underpin a new, green industrial revolution.

Who is CWP renewables?

Founded in 2007, the CWP group began its journey as a developer of windfarms in Southeast Europe. Building on two key early successes - the first wind farm in Serbia (Cibuk 1,158 MW) and the largest on-shore wind farm in Europe (Fantanele-Cogealac, 600 MW) - the company expanded its operations to Australia, under the name CWP Renewables.

Why is CWP global expanding?

CWP's consistent expansion is an accurate demonstration of its passion for helping the SEE region develop its clean energy potential and become fully independent from fossil fuels. CWP Global possesses the tenacity to change the green energy landscape.

What does CWP do in Australia?

In Australia, CWP developed a portfolio of over 1.5 GW of wind and solar projects, with a strong emphasis on community collaboration. CWP Renewables, CWP's Australian arm, was a joint platform with Partners Group, and sold for \$4 billion to Squadron Energy in 2022.

What makes CWP a good company?

Stamenov's conviction in renewable energy resources filters throughout the company, as CWP takes great pride in developing utility scale wind and solar parks across Southeast Europe (SEE), providing effective solutions to its sizeable pollution problems. "The system has such a high dependency on poor quality lignite and coal.

General Counsel, CWP Europe at CWP Global ? Experienced Counsel with a proven track record in M& A leadership, procurement oversight, and corporate governance. Specializing in legal management of financing arrangements, regulatory compliance, and risk management. Recognized for successfully leading in-house legal teams and providing strategic advice on ???

Developer of renewable energy assets intends to provide a green transition of the whole energy system. The company specializes in developing and operating large-scale solar, wind and battery storage projects in Bulgaria, Serbia, Romania and Ukraine.

Founded in 2006, CWP Europe is the developer of the 600-MW Fantanele Cogealac wind farm in Romania, which is the largest such facility in all of Europe. The company has a 6-GW-plus pipeline of utility-scale wind, solar and battery storage projects in Southeast Europe. Beyond Romania, it has developments in Serbia, Bulgaria, Albania, Moldova

CWP Europe, a newly created joint venture of leading renewable energy developer CWP and global energy and commodity group Mercuria Energy Trading, is ready to invest over 1 billion levs (\$593 million/511 million euro) in renewable energy projects in Bulgaria, CWP and Mercuria said on Tuesday.
