

What is a Cyberpower se425g uninterruptible power supply (UPS)?

The CyberPower SE425G uninterruptible power supply (UPS) safeguards small office workstations, networking devices, and home entertainment systems by providing battery backup (using simulated sine wave output) and surge protection during power interruptions. Data line protection for phone/network (RJ11) is included.

Does the se425g have data line protection?

Data line protection for phone/network (RJ11) is included. The SE425G has a capacity of 425VA/255 Watts and eight NEMA 5-15R receptacles four widely spaced to accommodate transformer-based plugs. Compact design allows for vertical or horizontal placement of the model, and the SE425G can be wall-mounted.

Does the se425g come with a warranty?

The SE425G comes with a three-year warranty and a connected equipment guarantee. Supplies power long enough for equipment to properly shut down when utility power fails. Helps prevent loss of data and minimizes the component stress caused by a hard shutdown.

How many receptacles does a se425g have?

The SE425G has a capacity of 425VA/255 Watts and eight NEMA 5-15R receptacles four widely spaced to accommodate transformer-based plugs. Compact design allows for vertical or horizontal placement of the model, and the SE425G can be wall-mounted. Features include EMI/RFI Filtration, GreenPower UPS(TM) High-Efficiency Design, and widely spaced outlets.

Will Cyberpower repair or replace a defective UPS system?

CyberPower will repair or replace a defective UPS system (including batteries) within three years of the purchase date. CyberPower will repair or replace properly connected equipment if it is damaged by a power surge.

# CYBER POWER BATTERY BACKUP SE425G

Replacement Battery for APC Back UPS ES 350 (Left) to replace the battery (second photo, right) that had failed in a Cyberpower 425A UPS SE425G (first photo).
