

Dahua's solar solutions are designed to be easy to install, even for those with limited technical experience. This can save businesses a significant amount of time and money on installation costs.

The Dahua 4G Solar Power Network Camera offers a number of benefits that can alleviate the abovementioned monitoring challenges. It is equipped with built-in 5W solar power panel and 10,000mAh high capacity a?!

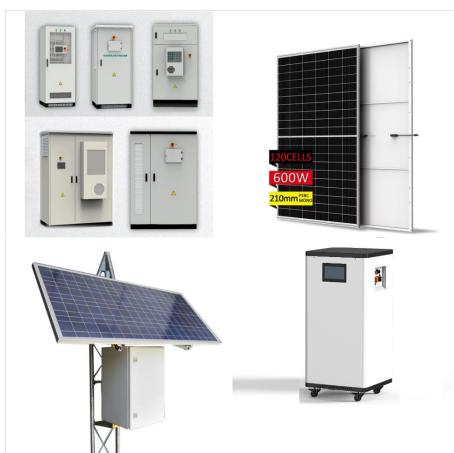

Dahua integrated off-grid security solution combines 4G network transmission technology with video surveillance (including AI functions), and applies solar power technology to form an integrated off-grid monitoring system.

Dahua Solar Panel PFM371-M275. Features: Solar Panel. Multi busbar solar cells, more steady current collection capability, effectively reducing losses; 0 to +5W positive tolerance, generating more power for users; Excellent performance in dim light environment with surface texturing technology of glass and solar cells

Monocrystalline silicon solar panel and MPPT solar controller are adopted, with higher conversion efficiency. It is equipped with high-performance lithium battery and low-power 4G camera. It can also support ultra long standby without any light. It is suitable for more application scenarios that need monitoring deployment.

La camara solar DAHUA DH-IPC-HFW2431DG-4G-SP-LA-B es una camara IP Bullet 4G que integra un pequeno Panel Solar y una Bateria de 10000 mAh para brindar de autonomia de grabacion una vez que deja de ser alimentada por la energia solar directa. Esta camara tiene una resolucion de 4MP y puede ser utilizada como camara de Disuasion Activa. Cuenta con un a?|

Monocrystalline silicon solar panel and MPPT solar controller are adopted, with higher conversion efficiency. It is equipped with high-performance lithium battery and low-power 4G camera. It can also support ultra long standby without any light. It is suitable for more application scenarios that need monitoring deployment.

The solar unit can be also used with any IP camera and a wifi AP or for any outdoor solar power IoT solution. Solar Unit The solar unit consists of a 120W solar panel integrated into an alloy housing along with a battery and MPPT solar charging unit. It has a very heavy duty 100m fully adjustable bracket allowing for 360° of orientation.

Dahua Mounting Bracket of Solar Panel PFM376-D. Features: Suitable for the solar panel model of DH-PFM371-M330 and DH-PFM371-M275, and support to install 2 pcs solar panels simultaneously. Package dimension & weight: 2245mm x 285mm x 110mm (88.39"x11.22"x4.33") 35 kg (77.16lb)

The solar unit can be also used with any IP camera and a wi-fi AP. Solar Unit The solar unit consists of a 60W solar panel integrated into an alloy housing along with a battery and MPPT solar charging unit. It has a very heavy duty 100m fully adjustable bracket allowing for 360° of orientation.

Overview . Dahua's integrated off-grid security solution combines 4G network transmission technology with video surveillance (including AI functions), and applies solar power generation technology to form an integrated off-grid monitoring system. The bullet version has a 100W option, and the PTZ version has a 125W option.
