

What's happening at the DOE Energy Storage Summit?

At this year's Summit, participants built upon valuable discussions from last year and focused on engaging with a diverse set of energy storage stakeholders specifically to inform how DOE will formulate strategies and pathways to accelerate clean energy storage innovation and deployment over the next decade and beyond. Questions?

Why should Doe invest in next generation energy storage?

DOE must leverage its resources, expertise, and convening power to remove barriers so that next generation energy storage technologies can enable a new energy future that is clean, affordable, and reliable for all.

Why did the energy storage community come together?

The energy storage community came together to explore clean energy pathways. There has never been a more exciting time to be in the field of energy storage made evident by multiple of DOE's recent key initiatives.

How can DOE's national laboratories help with energy storage?

DOE's national laboratories have a wide range of analytical and technical assistance capabilities that can be used to enhance decision making related to energy storage.

Sandia National Laboratories is a multi-mission laboratory managed and operated by National Technology and Engineering Solutions of Sandia, LLC., a wholly-owned subsidiary of Honeywell International, Inc., for the U.S. Department of Energy's National Nuclear Security Administration under contract DE-NA0003525. is a multi-mission laboratory

DOE ENERGY STORAGE FINANCING SUMMIT

U.S. DOE Energy Storage Financing Summit (NYC)
Energy Storage Valuation Workshop Panel 1:
Market Overview Panel 2: Capital Providers Panel
3: Revenue Certainty Invitations to the live feed will
be sent to all DOE-OE Energy Storage Peer Review
Participants. 10

Energy storage stakeholders gathered for the 2nd
Annual Department of Energy (DOE) Energy
Storage Grand Challenge Summit on Tuesday,
September 27 and Wednesday, September 28 at
Argonne National Laboratory. Attendees provided
the U.S. Department of Energy (DOE) with ideas on
how to facilitate new connections to achieve the
Energy Storage

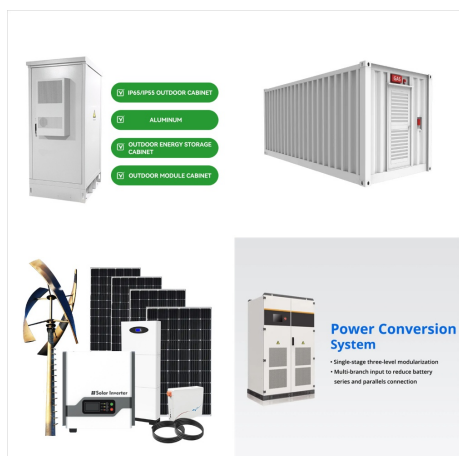

U.S. DOE Energy Storage Financing Summit 19
January 2022 - 20 January 2022 This event,
co-hosted by Mustang Prairie Energy, focused on
operating experience and how it translates into unit
and portfolio strategy, providing greater
transparency to financial institutions and promoting
deeper insights into this emerging asset class to

DOE ENERGY STORAGE FINANCING SUMMIT

DOE Energy Storage Financing Summit ???
Co-Hosted by Kirkland & Ellis and Mustang Prairie Energy
22 September 2020 - 23 September 2020
This recent two-part event focused on valuing individual systems and entire portfolios of energy storage projects, providing greater transparency to financial institutions, and promoting deeper insights

The U.S. Department of Energy (DOE) launched its Energy Storage Grand Challenge (ESGC) in 2020, presenting a comprehensive set of objectives and coordinated activities to ensure an efficient transition to ubiquitous energy storage in a decarbonized energy system of our near future. With an emphasis on concepts of "innovate here, build here, deploy

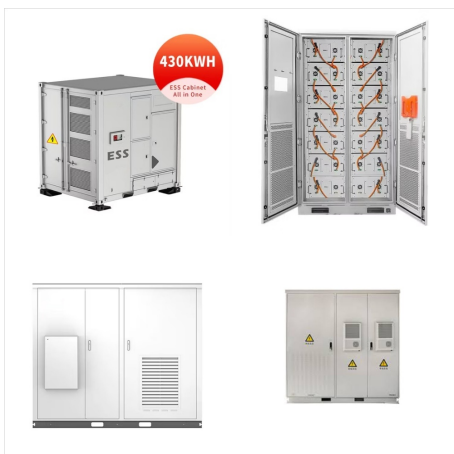

The webinar explores several topical issues, including how incorporating energy storage systems can enhance the capability and flexibility of projects and expand possible financing options. These events are part of the U.S. DOE's financial industry outreach efforts to advance market development by reducing barriers to entry, reducing

DOE ENERGY STORAGE FINANCING SUMMIT

Save the Date for the 2025 Better Buildings, Better Plants Summit! Mark your calendars: the U.S. Department of Energy's next Better Buildings, Better Plants Summit will be from April 30 to May 2, 2025, in Washington, D.C.. This annual event provides the opportunity for partners and key stakeholders to explore emerging technologies and share innovative strategies in energy ???

The Office of Electricity's (OE) Energy Storage Division's research and leadership drive DOE's efforts to rapidly deploy technologies commercially and expedite grid-scale energy storage in meeting future grid demands. The Division advances research to identify safe, low-cost, and earth-abundant elements for cost-effective long-duration energy storage.

U.S. DOE Energy Storage Financing Summit 19 October 2022 - 20 October 2022 This virtual seminar event, co-hosted by Mustang Prairie Energy and in partnership with Sandia National Laboratories, was focused on the current and future revenue opportunities for energy storage projects.

DOE Energy Storage Financing Summit: Virtual
???DOE Keynote Doreen Harris ???President &
CEO of New York State Energy Research &
Development Agency U.S. Department of Energy
Doreen M. Harris was appointed president and CEO
of the New York State Energy Research and
Development Authority (NYSERDA) on April 7,
2021.

The Energy Storage Summit USA will return in
March, taking place at a new and improved venue
for 2025. The US remains at the center of the global
energy storage industry, with California having
surpassed 7GW of grid-scale energy storage
installations, ERCOT going from strength to
strength, and new markets across the country
opening up.

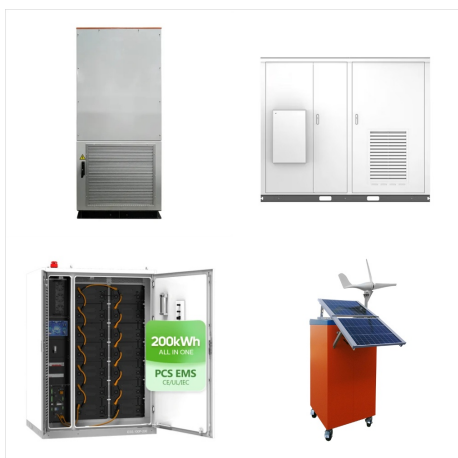

DOE ENERGY STORAGE FINANCING SUMMIT

Funding & Financing Federal, State & Local Government At the August 7-9, 2024 Energy Storage Grand Challenge Summit in Bellevue, WA, the Office of Electricity (OE) announced 12 selectees of the inaugural Storage Acceleration Vouchers to help solve pressing energy storage technology and deployment challenges. Each participating lab

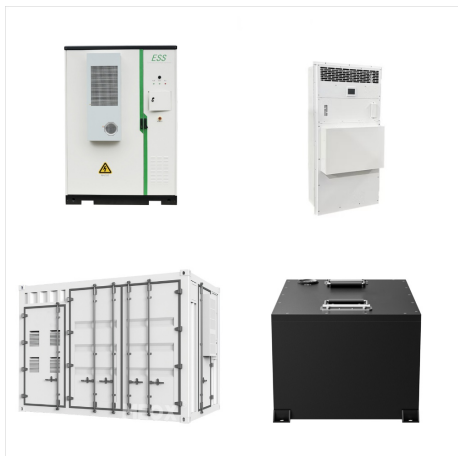

U.S. Department of Energy's National Nuclear Security Administration under contract DE-NA0003525. 2021 U.S. DOE ENERGY STORAGE FINANCING SUMMIT Virtual Event | January 26 & 27, 2021 In partnership with: Presented by: Energy Storage Financing Study: Overview Richard Baxter, Mustang Prairie Energy 1:15 - 1:45 p.m. ET

ATLANTA, GA???The U.S. Department of Energy's (DOE) Office of Electricity (OE) today announced more than \$30 million in awards and funding opportunities at the Energy Storage Grand Challenge (ESGC) Summit in Atlanta. The opportunities include two \$15 million Funding Opportunity Announcements (FOAs) for energy storage innovations: one related to ???

DOE ENERGY STORAGE FINANCING SUMMIT

The Department of Energy's (DOE's) Loan Programs Office (LPO) recently announced its first conditional commitment under the Tribal Energy Financing Program (TEFP) for a loan guarantee of up to \$72.8 million for the development of a solar-plus-long-duration energy storage microgrid on the Tribal lands of the Viejas Band of the Kumeyaay

U.S. DOE Energy Storage Financing Summit:
Virtual: July 17-18, 2018: Enabling Advanced Power Electronics Technologies Workshop: Albuquerque, NM: August 23-24, 2016: Energy Storage and Grid Integration Regional Workshop: Albuquerque, NM: May 3, 2016: Southwestern Public Utilities Commission (SW PUC) Energy Storage Workshop:

Kirkland co-hosted the 2021 U.S. DOE Energy Storage Financing Summit with Mustang Prairie Energy. The two-part event focused on operating experience and how that translates into unit and portfolio strategy, providing greater transparency to financial institutions, and promoting deeper insights into this emerging asset class to facilitate further investment.

DOE ENERGY STORAGE FINANCING SUMMIT

The Department of Energy's (DOE) Energy Storage Grand Challenge (ESGC) is a comprehensive program to accelerate the development, commercialization, and utilization of next-generation energy storage technologies and sustain American global leadership in energy storage.

Day 2 will expand CalCharge's annual Bay Area Battery Summit ecosystem to a national stage, with a focus on bridging the diverse stakeholders across science to systems to accelerate equitable national energy storage deployment in all relevant sectors: the evolving grid, energy-intensive industry, resilience, transportation, and buildings.

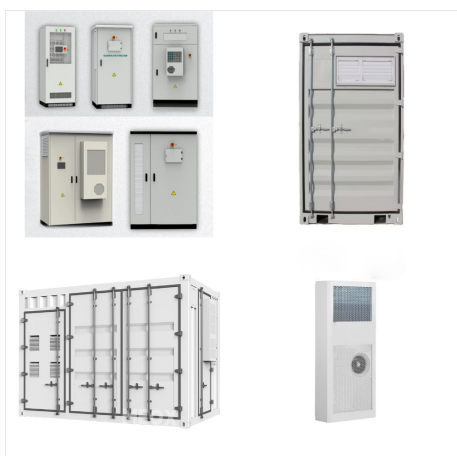

If you would like to present a case study or be part of a panel session at our Energy Storage Summit USA, then please get in touch with the team today. Deputy Assistant Secretary for Energy Storage in the U.S. Department of Energy's (DOE) Office of Electricity (OE). Speaker. New Financing Structures for Energy Storage: Fresh Ideas for

DOE ENERGY STORAGE FINANCING SUMMIT

Home Insights & Events Events Bruce Tsuchida to Discuss the Future of Energy Storage as Transmission at the 2024 US DOE Energy Storage Financing Summit. Event. January 24, 2024 2024 Energy Storage Financing Summit Host: US Department of Energy (DOE) Date: Wednesday, January 24 Time:

This year's summit will focus on new strategic efforts for energy storage advancement and progress in meeting the Long Duration Storage Shot goals. WASHINGTON, D.C. ??? The U.S. Department of Energy (DOE) will host the second annual Energy Storage Grand Challenge Summit on September 27-28, 2022 at Argonne National Laboratory in Lemont

At this year's Summit, participants will build upon valuable discussions from last year and focus on engaging with a diverse set of energy storage stakeholders specifically to inform how DOE will formulate strategies and pathways to accelerate clean energy storage innovation and deployment over the next decade and beyond. Location:

DOE ENERGY STORAGE FINANCING SUMMIT

The Energy Storage Summit USA will return to Austin in March, taking place at a new and improved venue for 2024. The US remains at the center of the global energy storage industry, with California having surpassed 5GW of grid-scale energy storage installations this year, ERCOT going from strength to strength and new markets across the country opening up.

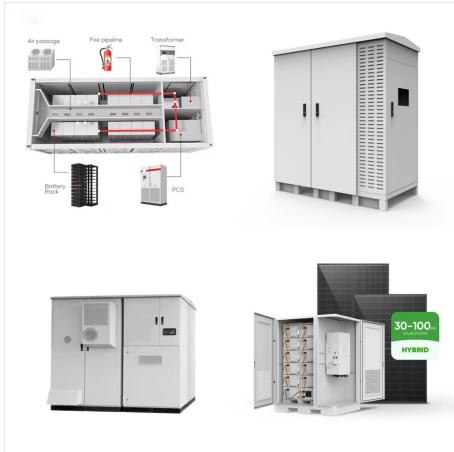

Kirkland co-hosted the 2021 U.S. DOE Energy Storage Financing Summit with Mustang Prairie Energy. The two-part event focused on cost and revenue certainty for energy storage project development and operation and translating that into greater transparency to financial institutions, as well as providing program attendees with deeper insights into this ???

Virtual DOE Energy Storage Financing Summit. 09 October 2024 - 10 October 2024. This virtual event, co-hosted by Mustang Prairie Energy and in partnership with Sandia National Laboratories, the U.S. Department of Energy and National Nuclear Security Administration, was focused on existing deployment challenges and opportunities for energy
