

How do I install revov life batteries?

Put cabinet in the "right place". You don't need venting or circulation with Revov LiFe batteries such as was required for many lead-acid battery installations. Put batteries into the cabinet one on top shelf and one on bottom shelf.

Do I need venting or circulation with revov life batteries?

You don't need venting or circulation with Revov LiFe batteries such as was required for many lead-acid battery installations. Put batteries into the cabinet one on top shelf and one on bottom shelf. All the necessary interfaces to connect are on the front of the battery and the BMS and there are no side flanges or brackets.

How do I connect a battery pack to revov?

Revov recommends that these should be connected in the following way: The first items to connect these two cables to are the appropriate fuses and breaker to allow the pack to be isolated from the rest of the system automatically (fuses) or manually (breaker). Connect the breaker to a battery busbar. Install a Shunt after the Battery Busbar.

How do I know if my revov battery pack is charged?

Once the BMS has registered the batteries the lights will most likely just be green and show the state of charge of the battery pack, each green light that is on indicates 25% charge (eg. 1 green light indicates 25% charge, 2 indicates 50%). You have now successfully completed the assembly of your Revov battery pack.

How do I install a battery in a cabinet?

Put batteries into the cabinet one on top shelf and one on bottom shelf. All the necessary interfaces to connect are on the front of the battery and the BMS and there are no side flanges or brackets. This makes it easy to install the battery into a cabinet.
