

Who is Doosan Power Systems?

Doosan Power Systems builds, maintains and extends the life of power plants across the world. We unite the rich heritage of Doosan Lentjes and Doosan Babcock in advanced steam generation, waste-to-energy and nuclear with the global leadership of Doosan Infracore Power in the design and manufacture of turbines.

Who is Doosan nuclear plant equipment manufacturer?

Doosan is Korea's nuclear plant equipment manufacturing specialist. We supply not only the core components of nuclear power plants, such as reactors, evaporators, turbines and generators, but also nuclear fuel handling facilities, nuclear fuel casks, and most of the auxiliary equipment for nuclear reactor systems.

Who is Doosan?

Doosan is the only company in Korea with the capacity to manufacture and supply pump turbines, generators and I&C equipment for large hydro power plants.

Why should you choose Doosan Power Systems?

Supported by our global service capabilities, this winning combination gives Doosan Power Systems the capability to provide efficient and cost-effective solutions that create real value for our customers and their assets around the world.

What types of equipment does Doosan offer?

Thank you for visiting the Doosan website. For a faster response, we provide each affiliate with questions.
Power generation / Water / Casting-forging / Construction / New & renewable energy Compact equipment /
Material handling equipment / Grounds maintenance equipment / Portable power / Attachments

Who is Doosan gridtech?

In 2016, we acquired 1Energy Systems, a US-based company with proprietary technology in the field of energy storage systems (ESS) control system software, to form Doosan GridTech, through which we are now playing a leading role in stabilizing power supply in the renewable energy market.
