SNOW DRAGON SOLAR sets new standards in sustainable building and offers everything from a simple solar array installation to building an energy efficient home. We design and install solar systems for new and existing homes and for commercial businesses. We also offer complete home building packages throughout New England.

Solar Fiji's Offerings: "Solar Fiji" specializes in designing and implementing tailored solar installations, engineered to suit the unique needs of each off-grid setting. Their expert team leverages top-quality components, including inverters, inverterchargers, and solar charge controllers, ensuring seamless integration and optimal performance.

Remember solar energy has been used by our ancestors in many ways. The glass lenses were used for creating fire by magnifying the sun rays. Even prior to that, the flint stones were used to create fire. Now the solar energy can be harnessed for creating electricity which could be stored and distributed in a pollution free atmosphere.

Solar Fiji supplied and installed an 880W Trina solar panel system in two homes in Moala, Lau Island, Fiji. The solar system will generate an average of 0.88kWp, and the inverter is capable of powering items such as LED lights, TV/DVD/Radio, small fridge or small deep freezer, computer, mobile phones, fans and other small electrical items.

The GCF can provide financial support for renewable energy projects through grants, concessional loans, and other forms of financial instruments, working with local partners, including Solar Fiji and the Fijian government. Green Climate ???
