

Who is developing Drombeg solar farm?

Developed by Tullamore Solar Farm Ltd. A wholly owned subsidiary of ESB ESB is announcing the development of a new renewable energy project, Drombeg Solar Farm, located north of Listowel, Co. Kerry. It will be developed by Tullamore Solar Farm Ltd, and construction will begin in Autumn 2022.

Where is Drombeg solar farm located?

Drombeg Solar Farm is located near the townlands of Ballydonohue, Glouria, Coolard, Knockenagh South, Carhoonaknock East, Coolkeragh and Tullamore, approximately 5km north of Listowel, Co. Kerry. Our Community Liaison Officer (CLO) and members of the project team are available to meet to discuss all aspects of the project at your convenience.

How will Drombeg solar farm work?

A landscaping scheme will be implemented to screen the solar farm from neighbouring residences and roads, and to help embed it into the surrounding landscape. Drombeg Solar Farm will connect to the electricity grid through a new 110kV substation on the solar farm site that will loop into an existing overhead line that traverses the site.

When did Drombeg solar farm get planning permission?

Drombeg Solar Farm achieved full planning permission on 22nd May 2019 (Kerry County Council planning permission reference number 18/720 and An Bord Pleanála reference ABP-302681-18). The substation element of the project achieved full planning permission on 30th March 2020 (An Bord Pleanála reference ABP-305106-19).

What is the Drombeg Solar Farm Community Benefit Fund?

The Drombeg Solar Farm project will have a Community Benefit Fund which will distribute grants to organisations in the local area once the solar farm is operational. The fund is to be used for the wider economic, environment, social and cultural wellbeing of the local community.

What is the planning permission for a solar PV farm?

302681: TULLAMORE, DROMBEG, AND COOLKERAGH, LISTOWEL, CO. KERRY, (18720) Planning permission with a duration of 10 years for a solar pv farm with an operational lifespan of 35 years to export up to 50mw of electricity to the national grid.

These milestones are essential steps in preparing the site for the full operational capacity of the solar farm, bringing it closer to delivering up to 50MW of sustainable power. #Delivery ???
