

Who buys electricity in Palestine?

It buys electricity from the Palestine Power Generation Company (PPGC), IEC, and other neighboring countries, which is then distributed to the six Palestinian district electricity distribution companies. Structurally, Palestine does not have sufficient distribution companies or systems.

Who is Palestine Electric Company (PEC)?

In 1999, Palestine Electric Company (PEC) was formed in the Palestinian territories as a subsidiary of Palestine Power Company LLC to establish electricity generating plants in territories under PA control.

What is the future consumption of electricity in Palestine?

Future consumption of electricity is expected to reach 8,400 GWh by 2020 on the expectation that consumption will increase by 6% annually. The Palestinian Electricity Transmission Company (PETL), formed in 2013, is currently the sole buyer of electricity in the areas under Palestinian Authority (PA) control.

How much energy does Palestine need?

Palestinian energy demand increased rapidly, increasing by 6.4% annually between 1999 and 2005. Future consumption of electricity is expected to reach 8,400 GWh by 2020 on the expectation that consumption will increase by 6% annually.

Where is Gaza power plant located?

The Gaza Power Plant is the only power plant in the Gaza Strip. It is owned by Gaza Power Generating Company (GPGC), a subsidiary of the Palestine Electric Company (PEC). It is located on Salaheddin Road and relies on diesel fuel imported via Israel.

Where is the Al Dhafra solar power plant located?

The Al Dhafra solar power plant is located in 35 km South of Abu Dhabi, in the Al Dhafra region. EDF Renewables began its construction in 2020. With an installed capacity of 2.1 GWp, it is the most powerful single-site solar park in the world, providing clean electricity to 160,000 local households.
