

Are Duracell AA batteries any good?

Duracell's mainstream AA batteries don't excel in any area, but they're good all-round performers and worth picking up if you find them on sale. Duracell claims they deliver 50% more power than most AA batteries, and you still get Duralock technology to keep them fresh for up to ten years in storage.

Is Duracell a good battery brand?

For decades, Duracell has been trusted by consumers all over the world as their go-to choice for battery needs. Their premium product line includes various batteries from AA and AAA to C, D, and 9V sizes, along with chargers and portable power packs. This company is one of the most reliable brands when it comes to specialty batteries.

What is the highest capacity Duracell battery?

Duracell is best known for its alkaline single-use batteries but it also makes rechargeable batteries in a wide range of sizes, with a darker shade of that iconic copper top. For the ever-popular AA and AAA types, we're reviewing the highest capacity Duracell options currently available, which are 2500mAh for AA and 900mAh for the smaller AAA size.

Are Duracell Optimum batteries alkaline?

Duracell Optimum batteries are alkaline, while Energizer Lithium batteries are lithium. Alkaline batteries have been the standard for years, but lithium batteries are slowly becoming more popular. Energizer Lithium batteries are off-the-charts in durability, capable of lasting a remarkable 8x longer than alkaline varieties.
