

XP16HPE Specifications Specifications
 Manufacturer DuroMax Power Equipment Part #
 XP16HPE Engine Type 4-Stroke Valve Type OHV
 Engine Cooling Type Forced Air Displacement
 420cc Bore 90mm Stroke 66mm Max Output 3600
 RPM Max Torque 28.5 Nm / 23.34 ft/lb.
 Compression Ratio 8.8:1 Shaft Orientation
 Horizontal Shaft Size 1" D

Comprehensive spec breakdown of the DuroStar
 DS4400E Electric start 3500 running watts 4400
 peak watts Long runtime More quiet than others?
 212 cc DuroStar OHV 4-stroke: Starting system:
 Recoil, Electric: Warranty: 3 years: Power; Voltage:
 AC: 120/240V 60 Hz, DC: 12V: Our mission is to
 help you find the best power generation equipment

In one event, PG& E shut down power to more than
 750,000 utility customers affecting up to 2.5 million
 people. Use a Portable Generator in a Power
 Outage. With a DuroMax or DuroStar Generator,
 homeowners can keep the power on to refrigerators
 and freezers, an air conditioner, and pumps, and
 lights plus some conveniences.

DUROSTAR NEXT GENERATION POWER SYSTEMS

cc (7 hp) gasoline-powered DuroStar OHV 4-stroke engine in the DuroStar DS4400E can put out 120/240V. It has a running power of 3,500W and a maximum power of 4,400W. This generator has a noise level of 69 dBA, which is quieter than background music. It can be started with a pull-start, but it also has a simple and elegant electric starter ???

DuroMax is first and foremost an engine manufacturer: At the heart of all our products resides a robust DuroMax Engine designed to provide you with the most power. DuroMax OHV (overhead valve) engines run cooler and are easier to maintain than OHC (overhead cam) engines. We utilize cast iron cylinder sleeves to prevent

The DuroStar DS4000S has a 208 cc (7 hp) DuroStar OHV 4-stroke engine that runs on gasoline and puts out 120V, 3,300W while running, and 4,000W at its most powerful. The generator has a noise level of 69 dBA, which is less loud than background music. It is started with a simple pull-start mechanism. With a full tank, the DS4000S can run for about 12 hours at 0.5 ???

DUROSTAR NEXT GENERATION POWER SYSTEMS

DuroStar Company Background. DuroStar generators are created by a company called DuroMax. They were founded in 2003 and are a company that focuses specifically on creating power equipment. Some of the electrical products they create include generators, standby units, and digital inverters.

Ease those concerns by considering a Durostar DS4000S Portable Generator, an engine/alternator combo that delivers 4000-Watts of power. The feature-rich capabilities of this rugged machine include an EZ-Pull recoil start, a sensitive mains circuit breaker, a must-have muffler system, and three 120-Volt outlets.

Page 18 Choosing the Right Power Cord Long or thin cords can drain the power provided to an electrical device by the generator. When using such cords, allow for a slightly higher rated wattage requirement for the electrical device. See Figure 12 for recommended cords based on the power requirement of the electrical device.
