

Did Eaton acquire Cooper Industries plc?

Diversified industrial manufacturer Eaton Corporation plc and electrical equipment supplier Cooper Industries plc announced that Eaton has completed its acquisition of Cooper. The acquisition was announced on May 21, 2012 and combines Eaton and Cooper into a new, premier global power management company named Eaton Corporation plc.

What is Eaton's deal with Cooper Industries?

CLEVELAND (AP) -- Eaton Corp. has agreed to purchase Cooper Industries PLC in a cash-and-stock deal valued at about \$11.46 billion that is designed to expand its reach in the global electrical power and distribution industry.

Will Eaton buy Cooper Power Systems?

Eaton Corp., the power and control systems giant, announced Monday that it would acquire Cooper Power Systems, a powerhouse in electric grid gear, catapulting the 90-year-old Eaton into a new class of smart grid competition.

Where do Eaton's Cooper Power Products come from?

Eaton's Cooper Power series products have roots from multiple sources, including Kyle, Line Material, McGraw-Edison, RTE, Kearney, and Cooper Power Systems. Each company played a key role in the development of modern distribution systems. Many of the common pieces of equipment and practices in use today were developed by these companies.

Will Eaton's acquisition of Cooper be a good investment?

Eaton believes the acquisition of Cooper will provide the potential for meaningful synergies over time and that there is a significant opportunity to realize expected pre-tax operating synergies of \$375 million and global cash management and resultant tax benefits of \$160 million annually by 2016.
