

Eaton offers two modular rackmount UPS system: the Eaton BladeUPS and 9PXM. Both are best-in-class modular rackmount UPS solutions designed for customers deploying centralized solutions in IT rooms, micro data centers and edge facilities. Eaton is an intelligent power management company dedicated to improving the quality of life and

The Eaton BladeUPS has reached end-of-life status. Eaton will, of course, continue to provide services and replacement parts for the BladeUPS. If you're looking for a replacement UPS, the Eaton 93PX 3Phase UPS is the replacement offering coming in June 2025 The Eaton BladeUPS is a three-phase, scalable and modular UPS for high density computing environments, ???

The Eaton BladeUPS is a revolutionary power quality solution that is scalable and modular. BladeUPS rackmount uninterruptible power supply expands power protection from 12 to 60 kW in a single 19-inch rack while reducing energy and cooling costs. Eaton also offers BladeUPS Preassembled Systems, the same great product, just simplified.

EATON BLADEUPS POWER SYSTEMS

The Eaton BladeUPS system is a modular battery backup platform that enables uninterruptible power to a populated rack or racks. Unlike other UPS systems, the BladeUPS houses both its electronics and batteries in the same ???

Alpine carries Eaton BladeUPS UPS Replacement Batteries in large quantities. Eaton BladeUPS UPS Batteries. Alpine Power Systems" experienced technical support & sales team is here to assist your needs: Request a Quote Email Us 877.993.8855

Eaton BladeUPS 12-60kVA The Eaton BladeUPS is a scalable & modular UPS system designed for high density computing environments, including large data centers. Dissipating one-third of the heat of traditional modular UPS systems, this powerful configuration provides the power protection your mission-critical applications need. ??? Protects mission-critical applications with innovative ???

The Eaton BladeUPS is a three-phase, scalable and modular UPS for high density computing environments, including virtualised or machine-learning IT applications. The BladeUPS delivers 12 kW of efficient, reliable power in only 6U of rack space, including batteries. You can expand its capacity by combining 12 kW modules in a scalable, building block fashion to deliver 60 kW ???

guidance only. Actual unit and system efficiencies
will vary based on site design

power system Designed specifically for high-density
computing environments, Eaton BladeUPS???12
kW BladeUPS in a rack (60 kW, N+1 redundant)
Reduce cooling costs with lower heat dissipation
The high-efficiency BladeUPS reduces the power
requirements for the data center. In the example
shown, the BladeUPS reduces

Fully scalable, highly efficient, and steadfastly
reliable: these are the features which make the
Eaton BladeUPS Power system the first choice of
those looking to protect critical IT equipment in
demanding, high-density data centers, telecom
facilities, and similar industries.

EATON BLADEUPS POWER SYSTEMS

2 eaton corporation Eaton BladeUPS Preassembled System Each preassembled system is factory installed, tested and placed in the new Eaton S-Series rack (42U). Eaton fully assembles the system, complete with communications cards and system wiring validation, prior to shipping, and it's delivered on a single, shock-absorbent pallet.

The Eaton BladeUPS is a revolutionary power quality solution, expanding power protection from 5 kW to 60 kW in a single industry standard 19-inch rack, and, most significantly, providing this robust, compact solution without generating the additional heat associated with legacy end-of-row, modular UPS products.
