EATON POWERWARE DC POWER SYSTEMS

??? Compatible with Eaton Energy Saver (ES) Rectifiers The Eaton(R) 3G Access Power Solutions are ideal for low to medium power telecommunications applications requiring compact, efficient and flexible DC power supplies with or without batteries. This Eaton 3G Access Power Solution 400 series has UL and FCC standards certifications. A technician

48V secure power up to 17.2kW The Eaton(R) Access Power Solutions are ideal for low to medium power telecommunications applications, offering compact, efficient, flexible and reliably secure DC power supply. This 19" rack mount system has an integrated distribution panel and is available with up to 12 of the 48V Eaton Access Power Rectifier

Powerware is a leading global provider of comprehensive power quality and backup power management solutions, consistently delivering the high 9s of availability demanded by today's digital economy under the Powerware series. DC power systems; Eaton strives for continued success in leveraging technical innovation to develop next

running costs for any DC power system of its type available. These features make the CR48-3G ideally suited to central office and data center applications that require the highest level of performance and reliability from the DC power system. Operating with the Eaton SC200 system controller, the CR48-3G rectifier modules will provide years of

EATON BladeUPS Power System; EATON 9355 UPS; EATON 93E UPS; EATON 9390 UPS; EATON 93PM UPS; in the series provide different features to offer the best power solutions for your equipment. For instance, the Eaton powerware 9170 suppresses power surges, regulates voltage and provides the essential backup support to safeguard PCs, telephone and

EATON POWERWARE DC POWER SYSTEMS

Eaton (R), Matrix, Powerware, Intergy TM, CellSure TM, SiteSure, PowerManagerII and DCToolsTM are trade names, trademarks, and/or service marks of Eaton Corporation or its subsidiaries and affiliates. Unless otherwise installing and commissioning dc power systems

The energy-efficient Eaton 9390 UPS (formerly Powerware 9390 UPS) provides backup power and scalable battery runtimes in a small footprint for mid-size data centers, medical equipment and other critical systems. With the groundbreaking Energy Saver System, the 9390 operates at 99% UPS efficiency and can pay for itself in three to five years???without sacrificing reliability.

Certified for use with the Eaton 9390, 9395 and 93PM three-phase UPSs, the VYCON flywheel systems offer a highly reliable DC power source. The VDC, VDC-XE and VDC140 Direct Connect UPS backup systems offer an alternative to lead-acid based batteries and bring unprecedented power capacity for instantaneous and reliable backup power.

EATON POWERWARE DC POWER SYSTEMS

Eaton DC Power Solutions limit, automatic equalize
The Eaton(R) Maxi Network 3G Power Solutions range of DC power systems is designed for communications applications requiring high powered, efficient, flexible, and secure DC power. Complete systems can be created from a suite of cabinets including rectifier cabinets, distribution cabinets, battery

24V and 48V secure DC power up to 8.64kW and 12kW respectively. The Eaton(R) 3G Access Power Solutions are ideal for low to medium power telecommunications applications, offering compact, efficient, flexible and reliable secure DC power supply. These 19" rack mount systems are available with up to 3 or 6 of the Eaton 3G Access power rectifier

DCinfo@eaton . Eaton Corporation disclaims any liability for direct, indirect, incidental, special or consequential damages arising a Powerware Enterprise Power Solutions dc power system.

EATON POWERWARE DC POWER SYSTEMS

The Eaton 3G DCD1M Series of DC Distribution Module is a 1U high, 19" rack mount 48V DC distribution module. Features such as ease of installation, easy to fit push-in circuit breakers and optional low voltage disconnect make the DCD1M an ideal solution for your converged data networks and low power telecommunications applications. The DCD1M series are targeted at ???

Power Monitoring Eaton can provide 24 x 7 DC power system and battery monitoring, and provide remote diagnostics to maximize responsiveness and uptime, Monthly performance reports and trend analysis assist optimum system performance. 4 EATON DC Power Solutions Catalogue Eaton's Telecommunications Power Solutions Business

Eaton DC Power Solutions The Eaton(R) 3G Access Power Solutions are ideal for low to medium power telecommuni-cations applications requiring compact, efficient and flexible DC power supplies with or without batteries. Typical applications include standby DC power for customer premises equipment, outdoor power plants, data networks and IP routers.

EATON POWERWARE DC POWER SYSTEMS

Eaton DC Power Solutions The Eaton Operating with the Eaton SC100 or SC200 system controller, the APR48-3G rectifier modules will provide years of cost-effective, and trouble free service for your 48V network access equipment. Fast on-line expansion of rectifiers (hot-swap)
