Eaton xStorage Compact is an all-in-one single rack battery energy storage system that fits into limited space.

Why should you use Eaton's energy storage system?

With Eaton's energy storage systems, homes and businesses gain access to a safe, reliable and efficient power management that harnesses the full potential of renewable sources. Now you can store energy when it's available and when rates are at their lowest, and use it when you need it.

What is the xstorage compact?

Designed as an all-in-one single rack energy storage system, the xStorage Compact is a multi-usage solution enabling a wide range of applications such as PV self-consumption, peak shaving, load shifting, back-up power, electric vehicle charging station integration and grid support.

Where is Eaton xStorage headquartered?

Eaton xStorage is headquartered at Eaton EMEA Headquarters, Route de la Longeraie 7, 1110 Morges, Switzerland.

What is xstorage buildings?

This compact system is modular, scalable and well suited for a wide range of energy storage applications. xStorage Buildings enables the Catholic University of Lille in France to integrate its renewable energy production and maximise consumption on campus.
