All current EcoFlow portable power stations utilize lithium iron phosphate (LFP/LiFePO4) batteries, except the Delta Max, which uses a nickel-cadmium (Ni-Cad battery). LiFePO4 batteries are the latest innovation in Lithium Ion (Li-Ion) battery technology. LFP batteries are more compact, energy-dense, and longer-lasting than other battery types.

EcoFlow portable power stations are portable, battery powered, quiet, charge with renewable energy, can be used indoors, and provide a huge amount of power to keep all of your devices running in an emergency, power outage, or for outdoor adventures.
