

What is ecoflow Delta pro?

EcoFlow DELTA Pro is our big daddy of power, featuring our most advanced technology, massive output power, and capacity, all while still being portable. A huge 3.6-25kWh expandable capacity means you can power your home during extreme blackouts for days on end.

How does the Ecoflow Delta work?

The Ecoflow Delta can power up to 13 devices simultaneously. It can be recharged using 4x110W solar panels, which allows it to be fully charged in four hours under excellent sunlight. Ecoflow Delta fits with each port you'll ever need to power any gadgets anywhere, so you will always feel right at home.

What is ecoflow Delta 2?

From our much-loved EcoFlow DELTA came EcoFlow DELTA 2. Faster, smarter, and more powerful, EcoFlow DELTA 2 is not just a battery; it offers a level of comfort and power security for the everyday user. Triple the capacity of EcoFlow DELTA 2 with Smart Extra Batteries.

How does ecoflow Delta 2 Max work?

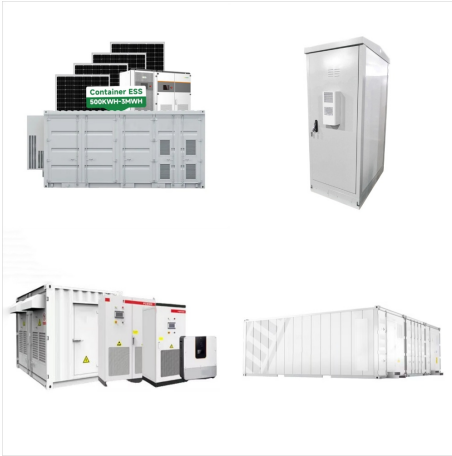

EcoFlow DELTA 2 Max balances on the go power with home backup. A single 2kWh unit is perfect for an RV or off-grid cabin, but with 2 Smart Extra Batteries, you can easily triple the capacity to 6kWh, offering days of power during an outage. Not only that, but EcoFlow DELTA 2 Max can connect to your home's transfer switch for partial home backup.

How much power does an ecoflow Delta Pro have?

That's enough capacity to power you through almost anything. With a single EcoFlow DELTA Pro unit, you have access to a 3600W AC output, which expands up to 4500W with X-Boost. This massive AC output is ideal for powering window air conditioners, washing machines, and other heavy-duty devices.

Does ecoflow Delta 2 have extra batteries?

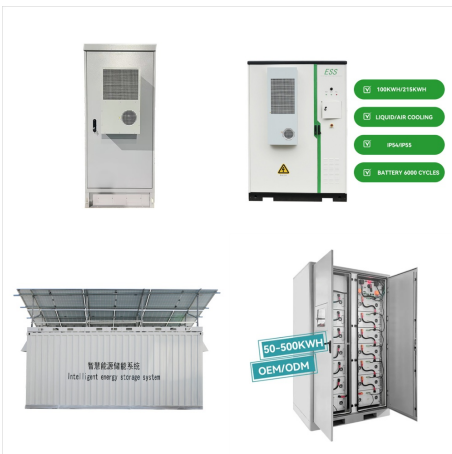

Faster, smarter, and more powerful, EcoFlow DELTA 2 is not just a battery; it offers a level of comfort and power security for the everyday user. Triple the capacity of EcoFlow DELTA 2 with Smart Extra Batteries. Add an EcoFlow DELTA 2 Extra Battery for 2kWh, or connect an EcoFlow DELTA Max Extra Battery to bump it up to 3kWh.

EcoFlow DELTA Pro 3 has two PV input ports, which are for high-voltage PV port and low-voltage PV, respectively. High-voltage PV: 30-150V, 15A Max, 1600W Max. Low-voltage PV: 11-60V, 20A Max, 1000W Max. The maximum solar input for the EcoFlow DELTA Pro 3 is 2600W. Please note that this value is based on experimental results under optimal conditions.
