

Is ecosun a good solar pool heater?

When used in conjunction with our stainless steel mounting system, Ecosun combines the strength and high performance of a solid collector with the benefits of roof ventilation and reduced wind load. As tested and certified by the Florida Solar Energy Center (FSEC), Ecosun is the highest rated vented solar pool heater in the world.

Are solar pool heaters cost-effective?

As a whole, solar pool heaters are very cost-effective, as they will help you save money in the long run as there are essentially no running costs. However, the upfront costs of solar pool heaters can range from cheaper solar blankets to expensive roof-mounted panels - more if you have a larger pool.

Do solar pool heaters get more sun?

As with most other solar pool heaters, the more sun the better! The Smart Pool SunHeater Solar Heating System can be roof mounted or rack mounted, giving you the option to pick the best spot in order to get the most sun on your property.

What is the highest rated solar pool heater?

As tested and certified by the Florida Solar Energy Center (FSEC), Ecosun is the highest rated vented solar pool heater in the world. 4 pages, 8.5" x 11" Part No. 19543 (Rev 7/2010)

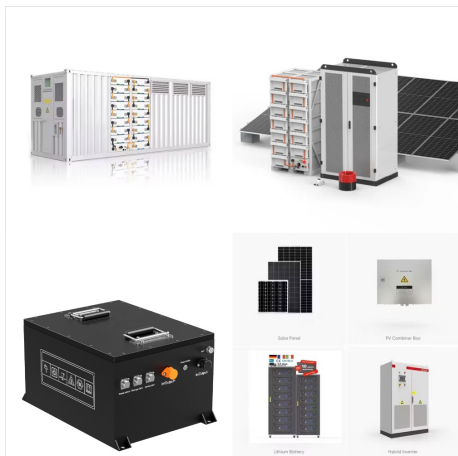

Does the sun2solar Blue Solar cover heat a pool?

However, The Sun2Solar Blue Solar Cover can still raise pool temperatures by a few degrees. On sunny days, it can even raise your pool water temperature by up to 10 degrees Fahrenheit, making the performance of this blanket comparable to some solar pool heater units. In order to actually heat your pool, this solar blanket needs exposure to the sun.

Is ECOSUN made in the USA?

ECOSUN® has been Made in the USA since 1993. It has been installed on over 75,000 pools around the world, adding more than 85 gigawatts thermal (GWth) of FREE heat energy and helping pool owners swim longer and more comfortably. ECOSUN® is made in the USA.
