Yes, there are a few disadvantages to installing solar panels. Firstly, the initial cost of purchasing and installing solar panels can be quite high, making it a significant investment. Additionally, the efficiency of solar panels can be affected by factors such as weather conditions and shading, reducing their output.

We believe that solar should be affordable to all people not just to the wealthy. Wholesale Solar Warehouse is your trusted partner for all your DIY solar projects! Our team has been helping our customers save thousands of dollars on their solar systems since 2010. We are a leading wholesale supplier of solar energy components direct to consumers.

Did you try "cheap solar panels"? Here's a "middle man" (also known as "a business") that has panels starting at \$0.43 for new panels, \$0.18 for used. Here's another that comes up near the top of any search for solar panels. Prices start \$0.49 Telling us that quotes start at \$16K is meaningless. We need to know how many kw, does it include
