With expertise in both domestic and commercial solar installations, as well as professional solar panel cleaning services, we're dedicated to powering homes, businesses, and communities across Cape Town and the Western Cape.

Dobro došli u srce inovacija u oblasti obnovljive energije a?? prvu fabriku solarnih panela u Srbiji. Sa misijom da unapredimo energetska nezavisnost i oA?uvanje A 3/4 ivotne sredine, mi u kompaniji DoMi Eko Solar smo posveA?eni proizvodnji visokokvalitetnih solarnih panela koristeA?i najnovije tehnologije u industriji.

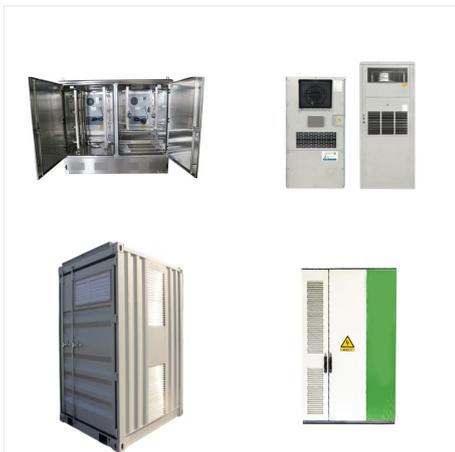

"Eko Solar" je prvi registrovani proizvoA?aA? "Koloidne srebrne vode" u Srbiji, koji ispunjava sve Zakonom propisane uslove. Vrhunska ameriA?ka tehnologija, potpuno automatizovana proizvodnja i redovna kontrola kvaliteta Instituta za preventivnu medicinu Vojno-medicinske akademije iz Beograda garantuju vrhunski kvalitet i potpunu bezbednost ovog proizvoda.

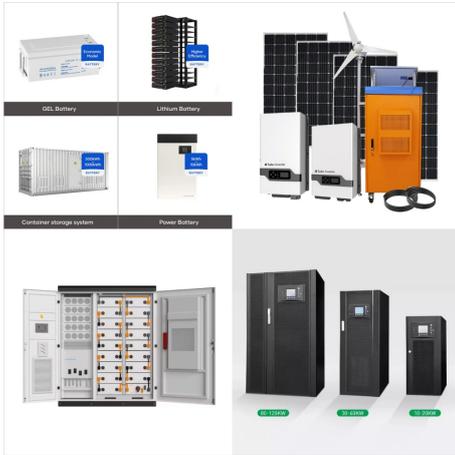

Established in Tokyo in 1927, EKO began distributing sensors for the Japanese meteorological and environmental market. In the 50s, we launched the first Japanese-designed and built pyranometer, producing a range of solar radiation sensors to meet the ever-evolving needs of the scientific community.

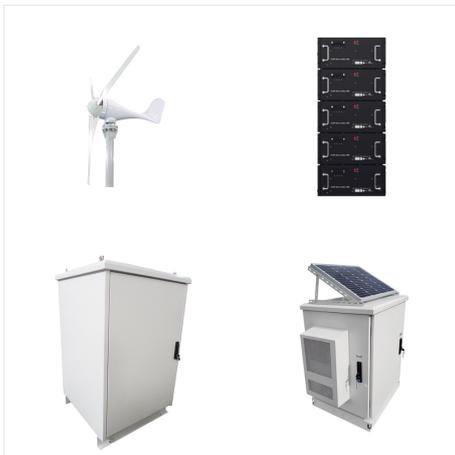

Domestic Eko Solar products are guaranteed for quality which is the production of the most modern equipment and compliance with the highest industrial standards, and the main advantage is that investors and buyers can directly see and verify the quality mentioned, for a difference from local distributors of foreign products", stressed Rajovic.

Keep anywhere around your home safe and secure with this versatile wi-fi security camera from EKO. View the camera anytime from anywhere through the EKO Home App which also gives you access to Full HD video recordings stored on an optional miniSD card (purchased separately). The built-in solar panel absorbs direct sunlight energy from the sun and converts to power to a?

We started our solar installation journey in 2017 and manage over 50 profiles. Since then we have been installing solar all over Georgia from ground mounts, on off grid backup and solar only systems. We are proud of our professional installations and training. We would like to extend our skills and help you on your solar clean energy journey.

Besides the standard EKO sensor mounts, various alternative mounts for non-EKO sensors are available. Featuring a fully automated set-up procedure via an onboard GPS receiver, providing increased reliability and enhanced functionality, the compact Sun-Tracker guarantees accurate sun tracking and pointing of the attached solar sensors from

EKO sun trackers deliver unparalleled precision, optimal positioning, and reliability with Harmonic Drive(R), low power consumption and automated, easy setup. Solar Energy Environmental Science Material Analysis About Toggle menu. Back. History Vision & Mission

An ISO9060:2018 Class A solar sensor in the top tier "fast-response and "spectrally flat" sub-categories, with unprecedented low zero-offset behaviour, and a 5-year recalibration interval.
