Solar Direct offers the most flexible off-grid and hybrid Solar PV systems on the Guyana market to meet the budget and needs of our clients. No job is too small or too big for us as we cater for both residential and commercial applications.

However, in times of power outages, some solar inverters come with an automatic shut-off system which stops supplying the stored energy to electrical equipment due to safety reasons. So find an inverter that counters this system, so when the electricity goes down but the sun is still shining, you'll have a continuous supply of clean energy. 2.
