Competitive power markets kept the lights on. But first it's important to remember that in this case, the competitive power markets run by PJM delivered, while non-market regions with vertically integrated systems faltered. PJM did not suffer rolling blackouts or any other significant loss of supply.

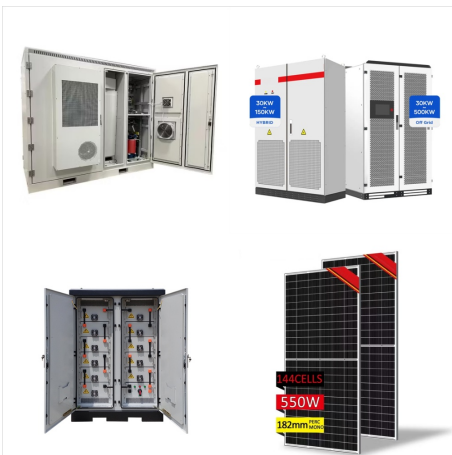

Elliott Systems LLC CNMI based in Saipan since 2010, is a leading provider of prime and standby power generation solutions. Our dedicated team is committed to delivering reliable generator and generator maintenance, water systems services for industrial and telecommunications sectors. With a focus on quality and innovation, we specialize in generator set modeling, diagnostic ???

The current model is optimized for performance at low wind speeds. Our turbines start making power at wind speeds as low as 3 m/sec and can provide clear economic benefits in low-medium wind regimes. The NPS 100 has a flawless track record of surviving extreme winds, from the bitter colds of Alaska to the tropical cyclones of the Caribbean.
