

What is Eneco Energy Trade?

Eneco Energy Trade is the only integrated energy trading platform in the Netherlands. This sets us apart from all other Dutch energy companies that have their trading floors abroad. For new providers and project developers, we are an important and accessible gateway to the energy market.

Who is Eneco?

Started in 2000 as a trading unit within Eneco, we have grown into the connecting link for climate-ambitious parties in the European energy chain. This goes beyond the daily buying and selling of (our own) renewable energy.

How does Eneco Energy Trade manage risk?

The energy market is a dynamic environment with price fluctuations, interest rate changes, geopolitical uncertainties, and technological advancements. Our risk managers assess these market risks 24/7 and establish the frameworks within which Eneco Energy Trade can operate, thereby protecting both our customers and ourselves from financial losses.

How can Eneco be climate-neutral in 2035?

Handle commercial negotiations for energy buys and represent Eneco's interests, including our aim to be climate-neutral in 2035. It's Eneco's unique proposition. Eneco is leading the energy transition as a market pioneer. That means the EET Operations & IT teams are always implementing new technologies and approaches.

Why do you want to work at Eneco?

Eneco is at the forefront of the energy transition and we want to strengthen and expand this position. We are the core of the company. The place where all of our energy flows converge, where innovation is top of the agenda and we're continuously delivering impactful projects. You will join a team with highly educated, passionate colleagues.

How does Eneco support sustainable innovation?

Additionally, we support our own business units within Eneco to continue investing in green innovation and new propositions. Sustainable innovation is more than developing new technologies to generate, distribute, and store renewable energy.

Eneco Energy Trade EET has international positions in the sustainable energy chain, and executes innovative cross-commodity & cross-technology sourcing and trading strategies. EET is the match maker between supply and demand in the renewable energy transition.

A Eneco Energy Trade ocupa uma relevante posi?ao internacional na cadeia de energia sustent?vel, dedicando-se a atingir uma matriz energ?tica 100% renov?vel e limpa. A escolha da Sustainable Carbon para compensar suas emiss?es se deve ao compromisso da empresa em buscar pr?ticas ambientais respons?veis, transparentes e reais que

In addition to Asset Optimization, Eneco Trade S.r.l. is a consultant in the field of trading wholesale energy blocks and environmental securities deriving from renewable energy source production plants owned by the Eneco Group (Green Certificates, TEE, Cofer, GDO). These Trading activities are carried out at our operational headquarters in
