Many of the ENERDRIVE | DOMETIC eSYSTEM DIY Installation Kits and Canopy Power Systems come with a Battery Restart Switch wired onto the board. This switch is designed to restart a lithium battery that has shutdown due to a low voltage warning.

Enerdrive | Dometic is an Australian-based provider of mobile power products, including lithium batteries and battery chargers, inverters and solar. The products and solutions are sold to a broad customer range across Caravan, Motorhomes, 4x4 and Marine. We have a large Service and Aftermarket network of more than 1,200 dealers.

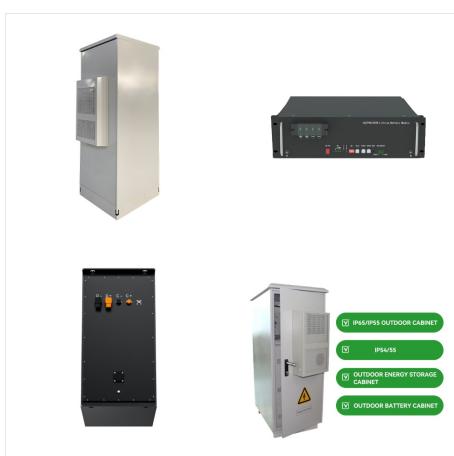

All Enerdrive Canopy Power Systems are assembled in Australia by the Enerdrive Production team. This cuts down on install time and guarantees that all charging components in the system are wired correctly with appropriate size cables and fusing. Most systems also feature pre-wired switches, circuit breakers, and USB or DC sockets to allow you

Enerdrive Power Systems are pre-wired and mounted on a heavy duty plastic board. This drastically reduces installation time because the installer can mount the entire system at once, rather than mounting each component of the system individually. The pre-wired system also cuts down on installation time by reducing the number of connections that
