

Going solar has never been easier. At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored ???

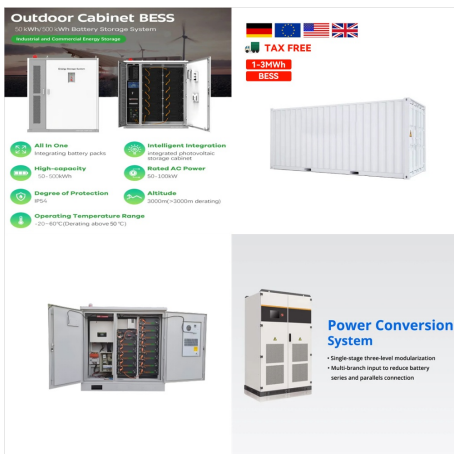

Noontide Energy is a commercial solar contractor, and the established authority in engineering solutions to address the concerns and challenges faced by building owners and developers looking to install solar panels on commercial and ???

Solar carports, awnings, canopies and frame-less glass versions are available. Our carports are built to last from galvanized steel for industrial areas to sleek designs from materials that ???

Energy Glass Solar??? uses inorganic nano particles that are co-infused in a polycarbonate interlayer, which is then laminated between two lites of 1/4??? inch glass. The nano particles redirect components of the light spectrum to the edge of the glass while letting most of the spectrum through.

Energy Glass Solar??? is a disruptive hybrid, energy producing glass developed and patented over a 10 year period. During the past 26 years, the developers of Energy Glass Solar??? have installed their hurricane, earthquake and bullet resistant glass worldwide.

EnergyGlass??? is an optically clear vertically installed building integrated photovoltaic glass window system that produces continuous electricity from sunlight, diffused, ambient light and ground reflectance and the only 100% field of vision in the world.

We offer an impressive collection of specialized technologies for all your solar and alternative energy needs. Our top-selling products range from high-end, project-specific items, to smaller residential applications.

Noontide Energy is a commercial solar contractor, and the established authority in engineering solutions to address the concerns and challenges faced by building owners and developers looking to install solar panels on commercial and residential rooftops in the Bahamas

Solar carports, awnings, canopies and frame-less glass versions are available. Our carports are built to last from galvanized steel for industrial areas to sleek designs from materials that satisfy the aesthetics of any environment.

We use the latest inverter technology and highest efficiency solar panels to give you the best return on investment possible and a system that will work for at least 25 years. Our figures ???

We use the latest inverter technology and highest efficiency solar panels to give you the best return on investment possible and a system that will work for at least 25 years. Our figures show that you will multiply your investment during this time by ten!
