

Does Ivory Coast have a reliable power supply?

Unlike other countries in sub-Saharan Africa, the Ivory Coast has a reliable power supply in the region, exporting electricity to neighboring Ghana, Burkina Faso, Benin, Togo, and Mali. Ivory Coast aims to produce enough renewable energy by 2030 to reduce its greenhouse gas emissions by 28%.

How much energy does Ivory Coast produce?

Energy in Ivory Coast has a capacity of 2,200 megawatts (MW) energy production. Unlike other countries in sub-Saharan Africa, the Ivory Coast has a reliable power supply in the region, exporting electricity to neighboring Ghana, Burkina Faso, Benin, Togo, and Mali.

How will the Ivory Coast power plant work?

The power plant will be fueled by natural gas and will utilize combined cycle technology, thus generating energy more efficiently. Moreover, the Ivory Coast aims to boost energy exports with the station's output while meeting the country's baseload requirement.

Will Ivory Coast achieve 45% of its energy mix by 2030?

It is part of the National Action Plan for Renewable Energies 2014-2030 of Ivory Coast which aims to achieve 45% of its energy mix from renewable energies by 2030. The project is a model of circular economy and will have strong social benefits: construction work on the power plant will create at least 500 local jobs.

Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast, a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector, with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

How much does the Ivory Coast energy station cost?

Moreover, the Ivory Coast aims to boost energy exports with the station's output while meeting the country's baseload requirement. The construction phase permitted the creation of approximately 800 jobs and will create 75 permanent positions during operations. Total cost of the project is estimated at EUR404 million.
