

What is Plesk. Plesk is a hosting control panel with simple and secure web server, website and web apps management tools. It is specially designed to help web professionals manage web, DNS, mail and other services through a comprehensive and user-friendly GUI.

Sierra Leone has launched an energy-transition roadmap that requires mining companies to connect to the national grid by 2040, reports Bloomberg. The transition to grid power is expected to reassure renewable-energy investors about the demand in Sierra Leone, justifying the \$10.9bn power expansion plan.

Freetown Waste Transformers (FWT) is an integrated waste-to-energy company operating in Freetown, Sierra Leone. There, it has successfully deployed a waste-to-energy pilot using proprietary technology (waste transformer) to convert organic (food) waste into electricity, heat, and fertiliser right at customers' doorsteps, cutting costs on energy and waste management bills.

ENERGY SOLUTIONS FOR RETAIL SIERRA LEONE

Energy in Sierra Leone Energy poverty is a major impediment to human development in Sierra Leone, especially in the rural areas. While some progress has been made towards enhancing energy provision (mainly lighting) in urban areas, energy access and availability remains poorly developed outside of the city.

Leonoil Company contracted INTEGEMS to undertake a comprehensive Environmental Social and Impact Assessment (ESIA) study on the twenty (20) LEONCO retail outlets in Sierra Leone. The study examined both positive and negative impacts that the Project's current and future operations are likely to have on both biophysical and socio-economic
