Energy-Storage.news" publisher Solar Media will host the 5th Energy Storage Summit USA, 28-29 March 2023 in Austin, Texas. Featuring a packed programme of panels, presentations and fireside chats from industry leaders focusing on accelerating the market for energy storage across the country. For more information, go to the website.

The island, about 2,000km south of Tokyo, has a subtropical climate and is prone to typhoons, which cause frequent power outages. Both of its towns are reliant on imported diesel for electricity and in addition to the logistical difficulties and costs of bringing the fuel in, keep the region locked into a cycle of high greenhouse gas emissions.
