

What is the energy storage project in Kosovo?

On the other hand, Neshati noted that "The Energy Storage Project is the largest energy project in Kosovo in decades and the most significant Battery Energy Storage System (BESS) project in Europe (MW per capita).".

Will Kosovo build a battery energy storage system?

The government of Kosovo will build a battery energy storage system (BESS) with a capacity of 200 MWh-plus to deal with the energy crisis.

Who owns the energy facilities in Kosovo?

Kosovo\* will own the facilities, the ministry added. Economy minister Artane Rizvanolli said the program would back the independence of the national energy system and enable its transformation. The details will be made known after negotiations between the government and MCC, planned for May.

Where does Kosovo get its power from?

The Kosovo A Power Station in Obilic. The country gets the bulk of its power from coal. Image: Flickr. The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200 MWh-plus to deal with the country's energy crisis.

Will Kosovo invest in solar power projects in Pristina?

Another procurement exercise will seek to deploy a solar district heating project in Pristina. According to its energy strategy, Kosovo also plans to hold two auctions for battery storage projects with a cumulative capacity of 170 MW.

What is Kosovo's Energy Strategy?

The energy strategy foresees 170 MW in battery operating power. In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Pristina, according to Rizvanolli.
