

What is Energy Vault?

Energy Vault is a global energy storage company specializing in gravity and kinetic energy based, long-duration energy storage products. Energy Vault's primary product is a gravity battery to store energy by stacking heavy blocks made of composite material into a structure, capturing potential energy in the elevation gain of the blocks.

How did Energy Vault get funding?

In 2019, Energy Vault secured funding from Cemex before going on to secure \$110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund, and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

Who owns Energy Vault?

In 2020, Energy Vault was Named Technology Pioneer by World Economic Forum and completed the mechanical construction of the first of its kind, grid-scale testing tower in Castione-Arbedo, Ticino, Switzerland. In 2021, Energy Vault announced investments from Saudi Aramco Energy, and other existing investors.

When did Energy Vault start trading on the New York Stock Exchange?

In February 2022, Energy Vault Holdings, Inc. began trading on the New York Stock Exchange following the business combination with Novus Capital Corporation II that raised approximately \$235 million in gross proceeds additive to \$107M and \$50M license fees from Atlas Renewable.
