Enertec Energy, as an affiliate of Enertec Batteries
(Pty) Ltd., in partnership with GT Powertank, is the
distribution partner for the Megatank brand in South
Africa, providing a range of solutions tailored to fit
your backup, load-shedding, and solar
requirements.

Enertec's reputation for superior battery technology is built on its innovative approach to power solutions. Using advanced lead-acid, AGM (Absorbent Glass Mat), and Enhanced Flooded Battery (EFB) technologies, Enertec batteries offer enhanced charge acceptance and longer cycle life.

These batteries are perfect for forklifts, drones, and other industrial machinery, delivering long-lasting power with minimal maintenance. Renewable Energy Storage Solutions: Enertec's lithium-ion batteries for renewable energy systems provide efficient energy storage to optimise the use of solar and wind power. These batteries ensure a

Commercial: Optimise energy consumption and reduce electricity costs with commercial-grade LiFePO4 battery solutions. Introducing Enertec | Megatank Portable Power Stations . For outdoor enthusiasts, campers, emergency situations, and remote locations, Enertec | Megatank offers portable power stations. These compact and lightweight power

Enerset Power Solutions specializes in the design, procurement, integration, and post-sale servicing of industrial power solutions and power distribution equipment for the oil and gas, petrochemical and power generation industries. We support the power system needs of energy companies across the US, Central, and South America.

Investing in backup power solutions such as generators or uninterruptible power supply (UPS) systems can provide temporary relief during power outages, allowing businesses to maintain essential operations until normal power supply resumes. Looking for battery storage solutions or solar power combo deals? Enertec Energy has partnered with

About Us Enertech Power Systems (EPS) OPC is a SEC-registered company that specialize s in testing and maint aining electrical equipment in generating plants and substations throughout the country. Additionally, we suppl y electrical components and equipment for various electrical systems such as motors, transformers, controls, PLC, protection, and switchgears.

Enertec Batteries prides itself on catering to a wide range of applications, ensuring that customers across various sectors have access to reliable power solutions. Our batteries are suitable for: Agriculture: From tractors to agricultural machinery, Enertec batteries power the backbone of South Africa's agricultural sector.

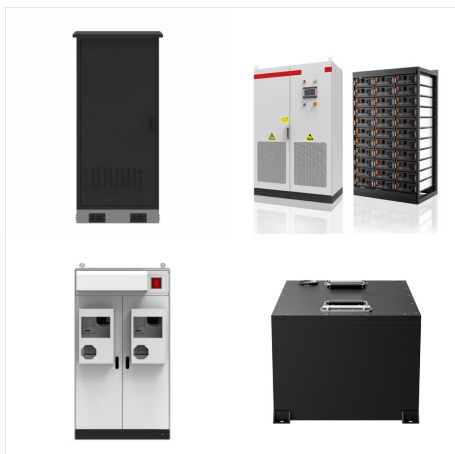

With our exclusive South African Distribution partnership with Enertec | Megatank, Enertec is able to offer superior quality & innovative back-up power and energy storage solutions to the South African market. Our Product Range: 1. GE Series - Hybrid All-In-One Energy Storage System. 2. GL Series - LiFePO4 Energy Storage Batteries. 3.

Auto Transfer System(ATS) or Auto Mains Failure(AMF) Panels Work description. ATS (Automatic Transfer Switch) or AMF (Automatic Mains Failure) Panels are intended to switch the electrical load of a system from the normal supply to a backup supply and back once more.

We will also highlight Enertec's Silver lead-calcium automotive and truck batteries, which represent the pinnacle of this technology. Additionally, Enertec offers Enertec Blue and Energizer automotive and truck lead-calcium batteries, providing a comprehensive range of high-quality power solutions for various needs.

Enerzea Power, established in 2009, has been making the world greener, through power solutions that harness natural gas and biogas for cogeneration plants in India and across the globe. What makes Enerzea Power a renowned green power company is the strategic partnership with global giants like, 2G Energy, Liebherr, and Tedom.
