

What is ENMAX Energy?

ENMAX Energy helps you make the connection to an installer who will work with you to get your solar system. Earn bill credits for the electricity your home's solar system exports to the grid during the sunnier months. Interested in supporting renewable energy but not ready for solar panels?

What is ENMAX doing in Calgary?

In addition, ENMAX is working with the City of Calgary to increase solar power use, installing panels on community centres and developing a two-way power flow system allowing solar installations in dense urban areas to send power back to the grid, Poweska adds.

How did ENMAX bring solar energy into Alberta?

Enmax's decision to bring solar electricity into the mainstream in Alberta was no minor task. Assisted with \$14.5 million in funding from the Climate Change and Emissions Management Corporation (CCEMC) Enmax set out to install 8,300 solar-electric systems and 700 wind-electric systems on homes across Alberta.

How do I contact ENMAX Power?

Phone: 310-2010 or 1-877-571-7111(Outside Alberta) Weekdays: 8:30 a.m. to 5 p.m. Closed: Weekends and statutory holidays. solarsupport@enmax.com DERConnect@enmax.com TRAC@enmax.com If you're a solar installer looking to connect a system to the Calgary network please visit ENMAX Power's Distributed Generation page.

Does ENMAX offer a solar training course?

Enmax partnered with SAIT Polytechnic in Calgary to offer a three-day solar training course. Technicians spent two days in the classroom and a third day working hands-on with the system components (solar-electric modules, inverters, racking, wiring, breakers) in order to ensure there would be an adequate supply of trained technicians.

Can ENMAX Energy change my rate?

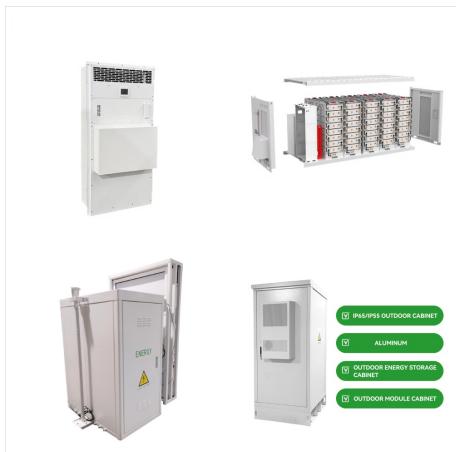

ENMAX Energy cannot automatically change your rate and cannot guarantee which months you will be able to export back to the grid. Your ability to export back to the grid depends on many factors including but not limited to the weather, your electricity consumption and the efficiency of your home.
