Founded in 2007 in Abu Dhabi in the United Arab Emirates, Enviromena Power Systems became the first mover in the developing Middle East solar market. With one of the largest footprints of clean energy projects, the company has installed more than 17,000 solar systems and have built one of largest portfolio of rooftop projects in the GCC.

# ENVIROMENA POWER SYSTEMS LOGO

Enviromena Power Systems: It is a renewable energy company that designs and builds grid connected utility scale photovoltaic plant. It offers development, design, installation, and long-term

Enviromena is a clean energy technology company in Europe. It has installed more than 17,000 solar systems. The company has over 425 MW of solar power plants under operation and a further 200 MW under construction. Enviromena was founded in 2007 by Sami Khoreibi who also CEO. At the time Sander Trestain was COO, and Erik Voldner was CCO. Voldner was responsible for establishing the regions firs???

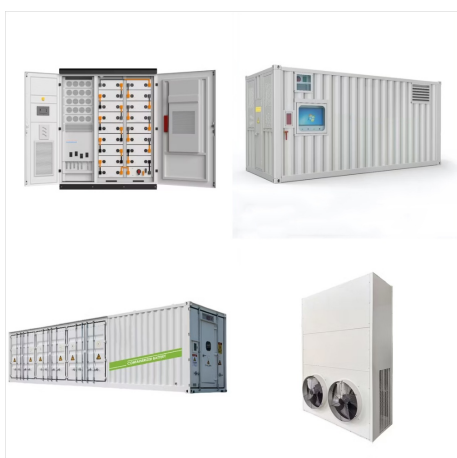

Enviromena has won a contract to repower three major solar farms in the UK ahead of the peak generation months this summer. Halse Solar Farm in Taunton; Horsacott Solar Farm in Barnstaple and Jordanston Solar Farm in Tenby, are all government subsidy accredited sites with a combined capacity of circa 20MWp and have been operational for over 10 years.

Arjun Infrastructure Partners (AIP), the UK-based independent infrastructure investment advisory company, has acquired Enviromena Power Systems, a portfolio company of Abu Dhabi Future Energy Company (Masdar)

Enviromena Power Systems: It is a renewable energy company that designs and builds grid connected utility scale photovoltaic plant. It offers development, design, installation, and long-term operation and maintenance services. EPS develops and constructs solar photovoltaic power plants for various applications including rooftop and autonomous

In March 2024 Enviromena completed a multi-million pound transaction to acquire the 71MWp Medebridge Solar Farm project in Essex. The site will comprise over 100,000 solar panels on 175 acres of land and will avoid more than 14,000 tonnes of CO2 per annum. There is a Corporate Power Purchase agreement (cPPA) in place on the site, to deliver

Enviromena Power Systems (Enviromena), one of the leading clean energy project company in the Middle East and North Africa (MENA), recently announced that it has been acquired by Arjun Infrastructure Partners (AIP). UAE-based Enviromena develops, deploys and operates clean energy solutions throughout the MENA region. With a project footprint

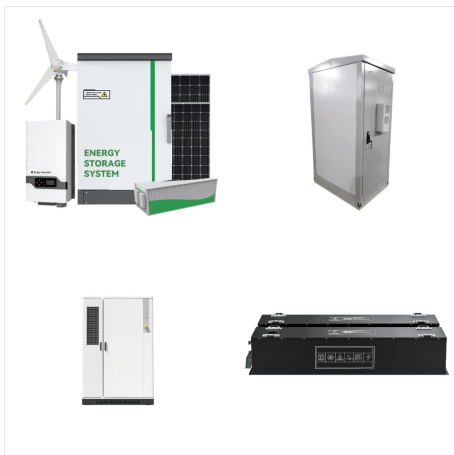

Enviromena Power Systems is a clean energy company specializing in solar farms and battery energy storage systems, with over 1GW of active projects in the UK and Europe. Enviromena has over 16 years of experience in developing, designing, constructing, managing, and operating renewable energy projects, with more than 250MWp under management.

17,000+ power systems installed; 500MWp under O& M management; Enviromena manages, operates, and maintains over 700 megawatts (MW) of renewable energy assets. As we develop our 1GW+ MW pipeline of renewable energy projects in Europe, the combination of developed -and soon-to-be-constructed 1.7 GW portfolio of wind, solar, and energy storage

The company offers turnkey solar power solutions, such as solar system design, supply, solar installation, contracting, and long-term operations and maintenance, as well as consulting services, including LEED, energy. efficiency, power ???
