

What is a solar EPC company?

What is a Solar EPC Company and What Services Does It Offer? EPC in the solar industry means engineering, procurement, and construction. It is a term that is widely used by companies that provide end-to-end solar energy services, including designing the system, giving procurement details about the system, and installing it.

What is solar EPC (engineering procurement & construction)?

To ensure the successful implementation of solar projects, the Solar EPC (Engineering, Procurement, and Construction) model is widely adopted. Solar energy continues to gain momentum as one of the most promising renewable energy sources.

What is solar EPC & how does it work?

While it's commonly used for commercial and industrial projects, residential projects can also benefit from the EPC approach, particularly for larger installations. Solar EPC, encompassing Engineering, Procurement, and Construction, plays a pivotal role in bringing solar energy projects from concept to reality.

What services does a solar EPC company offer after installation?

After installation, the solar EPC company will offer after-sale services like maintaining your system through equipment monitoring and maintenance. When working with a licensed solar EPC company, all the services are under one contract for the entire project.

What is a solar EPC model?

By centralizing these responsibilities, the EPC model minimizes risks, simplifies project timelines, and often results in cost savings for project developers. Solar EPC is often preferred over other models, such as the design-bid-build approach, where separate contractors handle design, procurement, and construction.

Why should you choose a solar EPC company?

Besides, after delivering the functional solar system to you, solar EPC companies continue to perform regular checks and continuous maintenance to ensure your solar system works at optimum efficiency. A solar EPC company is more sophisticated, professional, and reliable than a typical installation company.

EPC Solar was founded by Daryn Stocks in 2014 in partnership with wife of 20 years Carla Stocks. Together they have grown the company into a leading national provider of renewable energy solutions with a strong reputation of delivering for our clients.
