

Is ESB launching a battery energy storage system?

The storage co-located with solar market represents a pipeline of 1.5GW/2.4GWh, which is steadily increasing. Irish state-owned electricity company ESB has opened a 150MW/300MWh battery energy storage system (BESS) at its Aghada site in Co Cork.

What is ESB's biggest battery storage project?

Its first BESS site launched in 2022, a 19MW/38MWh project also located in Aghada. ESB chief executive Paddy Hayes called the launch of the company's "largest battery storage project so far" a "significant milestone". It replaces the 75MW/150MWh BESS at Poolbeg in Dublin as the biggest of ESB's projects.

Where is ESB located?

It is located at Poolbeg Energy Hub, where ESB - around 95% owned by the Irish state with the remaining stake held by its employees - is planning to deploy a combination of clean energy technologies, including offshore wind, hydrogen, and battery storage, over the coming decade.

What will ESB's Poolbeg site be able to do?

The Poolbeg site, the location of ESB's 75MW BESS, is pegged to host a combination of clean energy technologies, including offshore wind, hydrogen, and battery storage, over the coming decade. Both Ireland and Northern Ireland have set the target of generating 80% of the nations' electricity from renewable sources.

How do the Cocos (Keeling) Islands communicate?

The Cocos (Keeling) Islands have access to a range of modern communication services. Digital television stations are broadcast from Western Australia via satellite. A local radio station, 6CKI - Voice of the Cocos (Keeling) Islands, is staffed by community volunteers and provides some local content.

Who is Island Power Co Pty Ltd?
