Huawei constructed Africa's biggest solar facility in
South Africa with an impressive output of 540 MW,
using over 2000 high-efficiency inverters.
Remarkably, the plant stabilized within three
months. In Ghana, Huawei's solar-hydro hybrid ESS
project is slashing greenhouse emissions by 47,000
tons every year.

The agreement will see Huawei Digital Power provide a complete smart PV & energy storage system (ESS) solution for the 1 GW utility-scale PV plant and 500 MWh ESS project being developed by Meinerly in Ghana. The firms have been working closely across markets in Africa to deliver their renewable energy solutions.

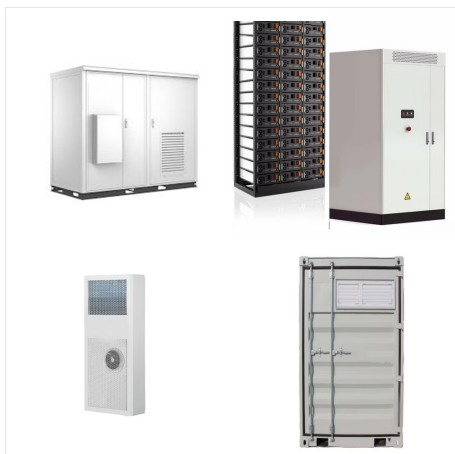

Projects like the Forest Road ESS proposal allow for energy to be stored at times of low demand and released at times of high demand. Energy Storage Systems also allow us to make better use of our existing electricity supplies and for ???
