Are solar batteries a good company?

A very good product meeting the needs and expectations, and a good customer service. The batteries were installed with a minimum of fuss by professional people who went about their work in a very considerate manner. WORST company I have dealt with in my life of 76 years Solar Battery Group.

Why is solar battery storage so popular in Australia?

Most Australian households are not home, or use very little power during the day. Energy usage is much higher during the morning and evening. This is why solar battery storage is getting everyone's attention! Solar batteries simply store unused electricity generated by your solar system during the day, for your own use
