Trinity and Elevation top our list for their services, and Sunrun rounds it out with its leasing options. Reduce your bills with clean, solar energy. We chose 6 of the best solar companies in Eugene, OR.

How do I choose a solar company in Eugene?

You should look at different companies and get quotes before booking your solar panel installation. When looking into Eugene solar companies, search for those with at least 3.5 out of 5 stars on sites like Google Reviews and similar platforms, in addition to a positive reputation on Better Business Bureau (BBB).

Are solar panels a good investment in Eugene?

You can find a local solar company in Eugene or use an established national brand. Although solar panels are a significant upfront investment, you can reduce your energy bills over the long run. According to the U.S. Energy Information Administration (EIA), transitioning to solar energy allows Eugene homeowners to save \$900 on average each year.

How much does solar cost in Eugene?

Make sure you know both the total cost of the system and the price per watt of solar installed. The cost per watt makes it easier to compare prices between quotes and gives you a better idea of how fairly the system is priced. The average price of solar is about \$2 to \$3 in Eugene, so anything in that range is a fair price.

Are solar loans a good idea in Eugene?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use incentives (tax credits etc) available in Eugene, rather than a leasing company retaining them.

What solar incentives are available in Eugene?

The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some states and utility companies offer additional solar incentives, saving homeowners even more money. Here are the solar incentives available in Eugene:
