Solar Pool Heating???Unique solar thermal technology built to last. In 1969 Freeman A. Ford founded FAFCO with the innovative concept of using polymers to heat swimming pools. After 100 years of solar thermal collectors being made from copper, new materials provided the resistance to the harsh chemicals that cause corrosion and system failures.

The integrated manual bypass valve can be used to shut off the system when the pool is up to the desired temperature. The Original Solar Bear can be mounted flat on the ground or on a ground-mounted tilted rack. Put the sun to work for you and enjoy free heat from your FAFCO Original Solar Bear. Note: For best performance, panels should face south
