

What is Farming Simulator?

Welcome to the official website of Farming Simulator, the #1 farming simulation game by GIANTS Software.

How do I install solar panels on my roof?

Then our solar panels are just right for you! We offer two different assets that you can install on your roofs. - different angular orientations: 10°, 15°, 20°, 25°, 30°, 35°; roof pitch. - To place, simply click on the front edge of the roof and place. The solar systems should now be located on the roof.

Do solar panels produce a lot?

But the amount you get is dependent on how strong the sun is and how hard the wind is blowing. Cloudy days will reduce the amount you receive and at night solar will produce nothing. I tested the solar panel over multiple years and also on easy and normal economic settings on Elmcreek, here are the results:

Buy and place solar panels on your farm to earn regular hourly income. Panel with index (W) ??? has a mechanism for automatic vertical rotation and manual horizontal tilt. Hello, I run a dedicated farming sim server for me and my friends on fs22. Unfortunately, one of our members is extremely lazy and just spams solar panels to make money, which just goes against the whole purpose of the game. Is there a mod or a way I can limit solar panels that can be bought or just remove them from the server entirely.
